AUSTRALIAN AND NEW ZEALAND FEATURE RACES

Compiled by Andrew Chapman

Below is a listing of the first, second and third placed finishing horses of feature races conducted in Australia and New Zealand. An asterisk is used where a dead-heat was recorded for any of the first, second or third finishing positions. Mile rate (or Kilometre rate) is used for all races in Australia longer than one mile and total race time is used for all races in New Zealand (including the Interdominion when raced in New Zealand). Numbers after the name of a horse refer to the handicap the horse started from in either yards or meters.
An index is included showing all races for which placegetters are listed.
At the conclusion of this listing are races which were run no more than twice but where the conditions of the race (including prizemoney) were such that the race attracted the best available horses in the state or country where the race was run.

Australia & New Zealand

Interdominion Pacing and Trotting (Heats, Consolations and Finals)
