**Race 6:** Interdominion Pacing Championship Heat 2

**Race 7:** Interdominion Trotting Championship Heat 2

Please read instructions on the reverse of the bet slip.

**NOTE: Tonight's Meeting Number is Number 8.**

The minimum unit of investment on the jackpot is \$1.

### MULTIPLE JACKPOT

You may select one or more runners for each jackpot race.

The cost of a multiple entry is found by multiplying the number of horses selected in each event.

e.g.  $3 \times 2 \times 3 \times 1 \times 2 = \$36.00$

You may select all runners in one or more of the jackpot races. (Use the box marked  Fd .) The cost would depend on the number of runners in the field.

If not struck tonight, the Jackpot Pool will be carried forward to the next meeting at Addington Raceway which is that of the New Zealand Metropolitan Trotting Club's Lion Brown Interdominion Championships, Third Night, on Saturday, March 7 1987.

**If not struck earlier the Jackpot must terminate at the First Meeting after the Net Pool reaches \$50,000.**

## TRIFECTA BETTING

In a Trifecta bet you must select three runners in a race to finish first, second and third in the correct order.

TRIFECTA

RUNNERS 1, 4, 6

To have a winning ticket, No. 1 must be first, No. 4 second, and No. 6 third.

**SUBSTITUTE**

A substitute for a race is determined five minutes prior to the advertised starting time and is the win favourite at that point in time. This only effects trebles, doubles and jackpot betting. However, a substitute is not required if it relates to the first leg of each of these forms of betting. Investments are automatically refunded.

The line immediately below the horse's name shows the life-time number of starts; placings first, second, and third, and total stakes won by the horse.

# THE STAR

## DRIVER OF THE SEASON

ADDINGTON RACEWAY 1986-87 SEASON

(August 16 1986 to May 22 1987)

WINNER \$300 SECOND \$150 THIRD \$50

Challenge Trophy to be presented and held by the winning Driver for 12 months.

The UDR system might look complicated but it's not. Based on the formula used in baseball in America, the UDR System is designed to ascertain the most consistent driver rather than the one who wins the most races.

To work out his rating just: Multiply his starts by nine  
Multiply his wins by nine  
Multiply his seconds by five  
Multiply his thirds by three.

Combine the totals for wins, seconds and thirds and divide it by the number of starts. The formula makes two seconds worth slightly more than one win, a second and a third just less than one win and three thirds an equal amount as one win. To be eligible to participate a driver must drive 40 times in races staged by the three Addington Clubs at Addington Raceway.

**SUBSTITUTE**

A substitute for a race is determined five minutes prior to the advertised starting time and is the win favourite at that point in time. This only effects trebles, doubles and jackpot betting. However, a substitute is not required if it relates to the first leg of each of these forms of betting. Investments are automatically refunded.
